PRIVATE VILLA

This architectural gem is ultra-modern in its design. A sleek stainless steel kitchen includes an island for casual dining and is adjacent to the living room. The two bedrooms on the main level, both with baths en suite, have access to the terrace via sliders and panoramic views. The pool level offers a cabana for shade and a special spot for dining alfresco. The property offers views of St. Kitts and Nevis, trade winds, the sound of the surf and is just a short walk to the beach.
