

Nala

PRIVATE VILLA

Contemporary in design and décor, this luxurious 5 bedroom villa - all with baths en suite - is terraced into the hillside overlooking Grand Cul de Sac and its gorgeous turquoise waters. What a panorama! The main level encompasses a spacious air-conditioned living room and dining area, with large openings that frame the view and lead to the outdoor living space.

Nala features a fabulous and ultra-modern kitchen that would delight any gourmet cook. One of the villa's bedrooms with its en suite bath (and shower with a view!) is in a separate pavilion on this level. Additionally, for convenience there is a guest bath on this level as well. One bedroom is located mid-level and enjoys a private garden terrace. The other three bedrooms, including the master suite, are on the pool level. The master suite is enormous with a comfortable sitting area and its en suite bath has a double vanity with vessel sinks and a private WC. Sliders lead to a sitting area and private dressing area. The 5th bedroom, discreetly located, has a separate entrance and could be used for staff. These bedrooms all have access to the pool deck. ...more at stbarth.com/villas/detail/ENSOL
