

Legends B

PRIVATE VILLA

Located only minutes from Gustavia, the five bedroom Villa Legends B is a stunner! If you can take your eyes off the view – water, water everywhere – and the neighboring islands of St. Maarten, Stacia and Saba, the pool will wow you. Extra-long, infinity-edged and heated, it's the focal point of an expansive deck that offers loads of outdoor living space for relaxing (sunbeds, too), shaded dining, and a bar with an ice maker. Think cocktails chilled to perfection. A sleek kitchen with every culinary accouterment has a bonus pantry-food prep area and is part of an open floor plan that encompasses indoor dining and living areas. The décor is elegant and includes pieces by renowned French designer Philippe Starck. A small air-conditioned fitness room and guest bath are also on this level.

The five en suite bedrooms are chic and fun with each named after a designer. All have French king beds and ample closet space. The Yves St. Laurent, Hermès and Chanel bedrooms are on the main level and open to the pool deck. The lower level BVLGARI suite has its own private deck and Jacuzzi. The Louis Vuitton master suite is perched penthouse-style atop the villa. Its wooden floor comes from the legendary Orient Express, and its oversized closets open like a steamer trunk, paying homage to the luggage maker. Glass sliders open to a private deck with a birds-eye view – the sunsets here are gorgeous. Ooh, la la.
