

Harbour Loft

PRIVATE VILLA

Describing this two bedroom Gustavia pied-à-terre as harbor-side would be an understatement. A covered terrace with a nautical feel is literally 'in the harbor'. Guests can dine and relax while watching the yachts glide into port and the sailboats gently bobbing in the water. The contemporary décor is carried through to the European-styled gourmet kitchen with its sleek breakfast bar and the comfortable living area with upholstered banquettes and plasma TV. The bedrooms are privately situated into the tri-level configuration.; one up, and one down, from the living area. There is a French king and a king/twin bed and elegant en suite baths with special features. The WCs designated for each are separate and private but could function as a guest bath. This is a perfect spot for Gustavia lovers and a convenient walk to its restaurants, boutiques - and to the ever-popular Shell Beach.
