The near-to-Gustavia location of the chic three bedroom Villa Bastide treats guests to a beautiful view of Baie de St. Jean and in the distance the island's notorious short runway "in action". A pair of lily ponds by the entrance sets a Zen-like ambience that complements the striking décor. A spacious living room is designed for unwinding, conversation, or enjoying the super-sized TV. An indoor dining area is adjacent to the chef-worthy kitchen; sliders open to a bar cum kitchenette equipped for BBQing. Grillmasters will swoon. A covered deck is furnished for poolside lolling and dining. The extra-long heated infinity pool has a shallow end for chaise lounges, positioned to take in the vista. There's a fitness room below the pool. The three en suite bedrooms all have French king beds, water views and a cool, serene ambience. The master suite includes a sitting area and an office alcove with a garden view. Guests have the option to connect with the other main-level bedroom. An additional bedroom is located on the opposite end of the villa and opens to a deck
