

La Montagne

PRIVATE VILLA

This sweet and petite 2 bedroom villa comes with a big sweeping view that encompasses neighboring islands and the aquamarine waters of Grand Cul de Sac. And it treats its guests to Instagram-worthy sunsets. All the "visuals" can be enjoyed from the well laid out deck that includes covered sitting and dining areas and chaise lounges positioned well for sun-seekers. There's a lovely little pool as well. Indoors, the décor is pretty and beachy-casual. The air-conditioned living room is nice for relaxing and watching TV (Apple TV) and the driftwood-toned kitchen is well-equipped for cooking in. The master bedroom (king) has an en suite bath Apple TV and sliders to the deck. The guest (king) bedroom, also with Apple TV, has an adjacent bath. An easy access driveway and ramp make coming and going a breeze.
