

Lam

PRIVATE VILLA

Step into luxurious villa Lam and you are treated to a panoramic vista of Gustavia Harbor. Take it all in; from the spacious living room and the three beautiful bedrooms, through the gigantic kitchen window, and across the crescent shaped infinity edge pool. The views are spectacular! Lam's pool is a gorgeous focal point, and you feel you could almost step out into one of the sailboats gently bobbing in the harbor. All three king bedrooms have en suite baths with double-sink teak vanities, private WCs, and not just walk-in showers - sit in and totally relax showers. Other special features include an air conditioned mini-gym, which serves double duty as a home office, and an air conditioned media room. Its comfy futon, adjacent shower and powder room across the way increase its versatility. A poolside portico provides a lovely setting for alfresco dining, and a winding stone staircase brings guests into the center of Gustavia and all its shops and restaurants.
