PRIVATE VILLA

The pool, large and particularly beautiful, is the focal point of the outdoor living space which includes a portico'd dining terrace and a nearby BBQ. Shade seekers are accommodated in an off-a-bit area of the teak deck that has two plush daybeds. Lounge chairs on the lower-level area afford another place to relax. The view from here is truly spectacular! The two equally-sized bedrooms are on opposite sides of the villa, affording privacy, and feature king-sized beds, TV/DVD players and ample closet space. The ensuite baths are beautifully appointed with twin sinks and indoor and outdoor showers. Glass sliders provide access to the pool deck. The villa's fitness room is a nice bonus feature. It's exceptionally well-equipped and a sauna and a shower are conveniently adjacent. Villa Gouverneur View is just a few minute's walk (steep) to pristine Gouverneur Beach and a short drive to Gustavia's shops and restaurants. ...more at stbarth.com/villas/detail/REFLM
