

La Roche dans l'eau

PRIVATE VILLA

The whimsical name La Roche dans l'eau means "a rock in the water" and comes from a strategically placed rock in the gorgeous swimming pool – and the focal point - of this contemporary-styled 3 bedroom villa. Its graduated depth simulates being at the beach and it offers a shallow end for wading and a delightful overflow creates a splash pool that is perfect for kids of all ages. What a spot to sip and savor a Planteur's Punch! The outdoor living spaces are resplendent and include a sunny terrace and covered areas for lounging and al fresco dining. The Grand Fond location offers not just glorious water views (Come evening the twinkling lights from the nearby island of St. Kitts are magical.) but also nearby jogging areas for guests seeking exercise including the path to the island's popular "Washing Machine" – a series of natural pools and areas beloved by surfers. The décor is contemporary and the villa's main level includes attractive living and dining areas, a well equipped kitchen and a guest bath. Two identical (queen) en suite bedrooms are at opposite end for added privacy and the third en suite bedroom (king/convertible to twins) is located on an upper level that is accessed by an outside staircase.
