

Sexy

PRIVATE VILLA

Guests at the beautiful four bedroom Villa Sexy are wowed upon arrival. After ascending its staircase, they are treated to a stunning vista of St. Jean Bay and the island's notorious little airport runway. Eight cushioned chaise lounges are queued up along the extra-long infinity pool facing the view. The pool is the focal point of the expansive sunny deck, which provides delightful outdoor living and dining spaces. A retractable awning provides shade when needed. Indoors, an open floor plan incorporates a chic, comfortable living room, dining area and a kitchen with island seating. On one side, it opens to the pool deck, and opposite, to a rear deck (with a BBQ). It's furnished for dining and relaxing and the view is nicely framed.

All four bedrooms have 4-poster draped beds, en suite baths and individual satellite TVs. The master with its French king bed is on one side of the living area and a second bedroom with a queen is on the other. Two additional bedrooms (queen and twins) are opposite one another, just up a short staircase from the rear deck. Their en suite baths feature indoor and outdoor showers. Villa Sexy's St. Jean location has much to offer with its proximity to the village's shops and restaurants, and the beach.
