

La Maison

PRIVATE VILLA

Hillside in St. Jean, this deluxe villa architecturally evokes a plantation house of yore and has been beautifully and lovingly furnished by its owners with unique pieces and accessories. The compact kitchen and spacious living and dining areas all overlook a spectacular L-shaped heated pool and the pretty view of the Baie de St. Jean. Two of the 3 (king/twin) bedrooms are on the first floor; the Governor's Suite with its colonial India décor boasts a stately desk against a backdrop of bookcase lined walls, a sitting area with a plasma TV and a gorgeous view! The Paul & Virginie Suite is charming and private. Both have baths en suite. The upper level third bedroom suite, named for Empress Josephine, has an en suite bath and a cozy alcoved sitting area where one could curl up and watch TV. This level also contains a study with a daybed. Villa La Maison is a very special villa and a wonderful vacation home for a family.
